

Monthly Coaching

At times as a business owner do you feel alone and unsupported?

Owning and operating a business is hard work. Long and demanding hours make it easy to get trapped in a tunnel vision state. It's important to take time from the daily operation of your business to gain perspective and clarity.

Our Monthly Coaching programme provides a regular forum to bounce ideas and make plans.

We'll give you the accountability and support you need to ensure you make the best decisions for you and your business. Together we'll develop strategies to improve performance and overcome any challenges you face.

Coaching isn't just about increased accountability, profitability and cashflow. It's also about achieving your desired work outcomes to gain the lifestyle you want. Whether your business needs guiding through a major change, or you simply wish to have regular contact with a trusted coach, we'd love to help.

Would you value a regular forum with an independent party to discuss burning issues and opportunities?

Monthly Coaching enables you to be proactive, not reactive:

- ✓ Be accountable to achieve your desired results
- ✓ Identify and resolve your burning issues
- ✓ Gain an understanding of the key drivers within your business
- ✓ Understand the impact of ideas prior to implementing them
- ✓ Access an impartial coach to filter ideas and improve decision-making
- ✓ Increase efficiency, profitability and cashflow

This coaching programme consists of monthly meetings with a senior team member. Prior to each session you'll complete some simple pre-work which will influence the focus of each session.

We'll help you review your results, identify opportunities, clarify areas for improvement, and discuss how to overcome any obstacles you're facing.

Monthly Coaching gives you regular dedicated time to make better business decisions, utilising knowledge and support from your coach.
